5	Matlabpur		

List of Activities:

ACTIVITY 1:

Name of Activity: Jal Sanrankshan Diwas (21/07/19)

Need of the Activity: Strategies and exercises to reasonably deal with the characteristic asset of freshwater, to ensure the hydrosphere, and to meet the current and future human interest. Factors, for example, environmental change have expanded pressure on normal water assets particularly in assembling and horticultural irrigation. Many nations have just actualized arrangements gone for water protection, with much success.

Description in 200 words (along with the Pictures): Close around 20 understudies and 150 resources have been taken part in the movement. During the action, a short video has appeared on water protection alongside speech of understudies and director. A few poems were likewise read by the understudies. The principle point of this occasion to tell about the significance of water and to tell about the strategies for water preservation. We have underlined on "Half cutting water". At the end an oath was taken to save water.

All are gathered in auditorium

Honorable le Trustee telling about Importance of water

ACTIVITY 2:

Name of Activity: Plantation (30/07/19)

Need of the Activity: The requirement for plantation has become considerably more prominent nowadays as a result of the developing contamination in the earth. There are various reasons why plantation is significant for the earth. Everybody realizes that trees are the regular wellsprings of Oxygen as they breathe in Carbon dioxide and breathe out Oxygen and without it, the endurance of people is beyond the realm of imagination on earth. They channel harmful toxins from the climate and give us fresher and cleaner air to breath. Air contamination can be controlled, on the off chance that we plant an ever-increasing number of trees.

Description in 200 words (along with the Pictures): A gathering of 200 new comers have planted the trees. Alongside the understudies the instructors and non-teaching staff additionally took an interest in the ranch drive. Every understudy has planted one tree and take the charge to deal with their plant.

Action plan for next month:

Sr. No.	Activity to be conducted(along with reason)
1	Plantation in adopted villages (They channel harmful toxins from the climate and give us fresher and cleaner air to breath.)
2	Survey of the villages
3
