MET TRUSTEES..... OUR PILLARS

MET INSTITUTES

Moradabad Educational Trust (MET) was constituted in 1995 with a motive to produce skilled manpower of highest quality to meet complex technological needs for economic development of the country. In this step, Moradabad Institute of Technology, (MIT) was established in 1996. MIT was among the first batch of three self financed Technical Institutes of U.P. Right from the beginning MIT has been led by eminent senior academicians from reputed universities of the country. Its foundation in the terms of academics, infrastructure and placement was laid very strongly and it continued to grow upon that.

MIT started with 160 students in three B. Tech branches namely Computer Engineering & Information Technology Electronics & Communication Engg. & Mechanical Engg. Now it is running five B.Tech Branches namely, Computer Science & Engg., Civil Engg., Electronics & Communication Engg., Electrical & Electronics Engg., Electrical Engg. and Mechanical Engg. MIT also run MBA Programme with intake of 60 students.

Moradabad Educational Trust added four more colleges along with MIT and these are MIT College of Management, MET Faculty of Architecture and MET Faculty of Pharmacy and MIT College of Pharmacy. The MIT Groups of Institutions are taking shape to play the expected role in the higher technical education of the country.

MIT along with other colleges are nourished by a group of dedicated, hardworking and qualified faculty and staff. Although the Institutes of higher learning in technical field grew enormously during past decade, efforts were made to keep the quality of MIT Group of Institutions high, without any compromise.

We feel proud of the success story of last 22 years of MIT and with its holistic approach towards education, MIT is going to flourish.

MET is also running Digital Assessment Process Zone established by TCS in MIT campus since 2016.

MESSAGE FROM SRI SUDHIR GUPTA CHAIRMAN

As we step into this new era of technology and science, filled with techniques, skills and dreams of scaling new heights, I wish to reiterate that MIT Group of Institutions are working to guide their students to achieve whatever goals they may have in their minds, so that they may be able to discover the genius in each one of them. The purpose of education is to think and develop capacity to reason out facts. Students should keep in mind the importance of planning and prioritizing their time and its effective use which are essential to achieving success.

I wish all students to take advantage of the opportunities provided by the institutes and involve themselves in all the extra-curricular activities that are offered. Students should always think and review to discover the cause and effect of every event in which they are involved. Do not surrender or become a slave to any fancies and indulgences. Be steady in studies. Learn to enjoy hard work – think wisely, think systematically and always prepare for next challenges, preserve our heritage and environment. Always be a soldier to defend and preserve our territory.

MESSAGE FROM SRI ADARSH Kr. AGARWAL SECRETARY

It gives me immense pleasure to note that MIT, Group of Institutions is bringing out its brochure. It is really a matter of pride to state that it has made a significant impact on the academic sphere of the nation. The MIT Group of Institutions is marching ahead on the gloves path of excellence by enabling 100% Placement of students. The highly qualified faculty is dedicated about grooming excellent technocrats with holistic development. We also prepare young brains to bear social responsibilities so that our entire nation could beanie a real example of national integrity and patriotism with the highest standard of work ethics. Nothing can surmount the feeling of satisfaction that one can witnessing dreams being translated into reality. I feel proud to see young students accomplishing dreams at MIT, Group of Institutions. I wish that this brochure will meet the cherished goal for which it has been designed.

MESSAGE FROM PROF. (DR.) B.P. SINGH DIRECTOR MIT

I am extremely glad to know that MIT is bringing out its Brochure with complete historical saga and current accomplishment. MIT possesses the best infrastructure and state-of-the-art laboratories, library, Wi-Fi campus, well qualified faculty and many more features including an overall personality development of students. The department of training and placement always tries to ensure 100% placement of registered students.

MIT has been making continuous efforts to provide the best facilities so that students could develop their skills to save our country with dedication, commitment, with a sense of the vision and mission of the Institute. I wish all the students a bright future.

MESSAGE FROM PROF. (DR.) MANISH AGARWAL DIRECTOR MITCOM

The business environment today is more complex and unpredictable than ever before. With disruptions driven by fast paced technological advancement, business models are changing continuously and this necessitates experiential and analytical learning to stay relevant and add value. MITCOM focuses on students' success through a culture of academic & corporate collaboration and by providing an environment of analyzing, experimenting, learning and practicing management tools & techniques. Our mission is to develop competent managerial human resource for the industry, who are ready to take on the challenges of the ever-changing corporate environment.

MIT College of Management with its glorious legacy of 10 years is recognized as one of the best Institute in the region for its excellence in the realm of management education. Our alumni have done extremely well and have risen to apex position in reputed and globally acclaimed organizations. The Institution focuses to empower students with sound knowledge, wisdom, experience and training in the highly competitive global market. The infrastructure facilities and state-of-the-art equipments combined with the galaxy of competent, talented and dedicated faculties contribute to an enjoyable and an easy learning experience. The pedagogy includes live projects, case studies, individual & group projects, presentations, role plays, business simulations, etal apart from regular academic inputs, industrial visits, outbound programs and educational trips.

We are here to make your dream come true and looking forward to associate with you for building a bright collective future.

MESSAGE FROM PROF. (DR.) S.R. SWAIN DIRECTOR METFOP

Welcome from Director, Faculty of Pharmacy. The Faculty of Pharmacy plays a distinctive and essential leadership role in the academic and professional evolution of the pharmaceutical profession. Since its inception, the Faculty of Pharmacy has remained a place of innovation, creativity and excellence in pharmacy education. As the needs of society and the profession changed, the Institute pioneered new programs to prepare better future pharmacists for an expanded role in the health care profession. The Institute of Pharmacy is in the midst of a remarkable transition as we see unprecedented growth in the size and quality of our faculty and research programs. Our faculties are recognized for advancing the pharmaceutical sciences, the social and administrative sciences and the practice of pharmacy. Research grants and contracts from various agencies, foundations, and associations are in the process. We provide a unique educational experience, combining the best in the classroom, laboratory and experimental learning under the direction of a class faculty, right in the heart of Moradabad. The institute continues to evolve and grow. What remains constant is our commitment for preparing students to be agents of change within their field, seeking to apply their knowledge and skills to improve the lives of people nationwide and around the world.

HISTORICAL SAGA

Moradabad Institute of Technology (MIT) was established in the year 1996 by Moradabad Educational Trust with four trustees' viz. Mr. Sudhir Gupta, Mr. Y.P. Gupta, Mr. Adarsh Agarwal and Mr. Anil Kumar Agarwal later on, in 1998, three more trustees were also joined viz. Mr. Neeraj Agarwal, Mr. Arvind Goel and Mr. Pradeep Jain.

MIT is among the first three degree engineering colleges established in U.P. under the self financing scheme of Govt. of India. In the beginning, in 1996, the Institute had three B.Tech. programs with an intake of 160 students only. In subsequent years other programs were added. Presently the Institute runs five B.Tech. programs, viz., Computer Science & Engineering, Electronics & Communication Engineering, Mechanical Engineering, Electrical Engineering and Civil Engineering. Besides B.Tech. programs, the Institute is running MBA.

The present students' strength is approximately 2050. Our Computer Science & Engineering, Electronics & Communication Engineering and Mechanical Engineering were accredited by the NBA, Government of India thrice in 2004, 2007, 2011.

Two more colleges faculty of Architecture and faculty of Pharmacy were started in the year 2009 with intake 40 and 60 respectively. In year 2010 one more college i.e. MIT College of Management with intake of 120 seats was also started leading to formation of MIT Group of Institutions (MITGI). MITGI ranks at a high positions amongst institutions affiliated to the University. Our alumni are working around the globe in leading industries and MNCs. Institutions in MIT campus are marching ahead on the glorious path of academic excellence.

The campus is spread over an area of 18 acre of land with a lush green environment consisting of nine academic blocks and has well equipped state-of-the-art laboratories, computer centers, Wi-Fi campus, a rich digital library, highly efficient and dedicated Department of Training & Placement, fully air-Conditioned seminar halls and centrally air-Conditioned auditorium, administrative and accounts section, canteen, indoor and outdoor games facilities. The Institute has a highly qualified faculty with a student-faculty ratio of 20:1. It gives truly conducive environment for Education, Knowledge, Research, Innovation and Skills (EKRIS). MIT Stands for "Motivation, Innovation and Transformations" which symbolizes the true meaning of education. Our campus placement is 100% of registered students in the leading companies of the world with high pay packages. Moradabad is known as the Brass city of India. The annual exports of brass, aluminum and glassware products from Moradabad amount to about Rs. 3000 crores. Moradabad is situated on the Northern Railway main rail links (Howrah-Lucknow- Amritsar and Lucknow- Delhi) and 160 kms east of Delhi on NH-24. MIT is located 5 kms from the Moradabad Railway Junction.

MORADABAD INSTITUTE OF TECHNOLOGY ENSURE A RAGGING FREE ENVIRONMENT AS PER THE RULES AND REGULATION LAID DOWN BY GOVERNMENT.

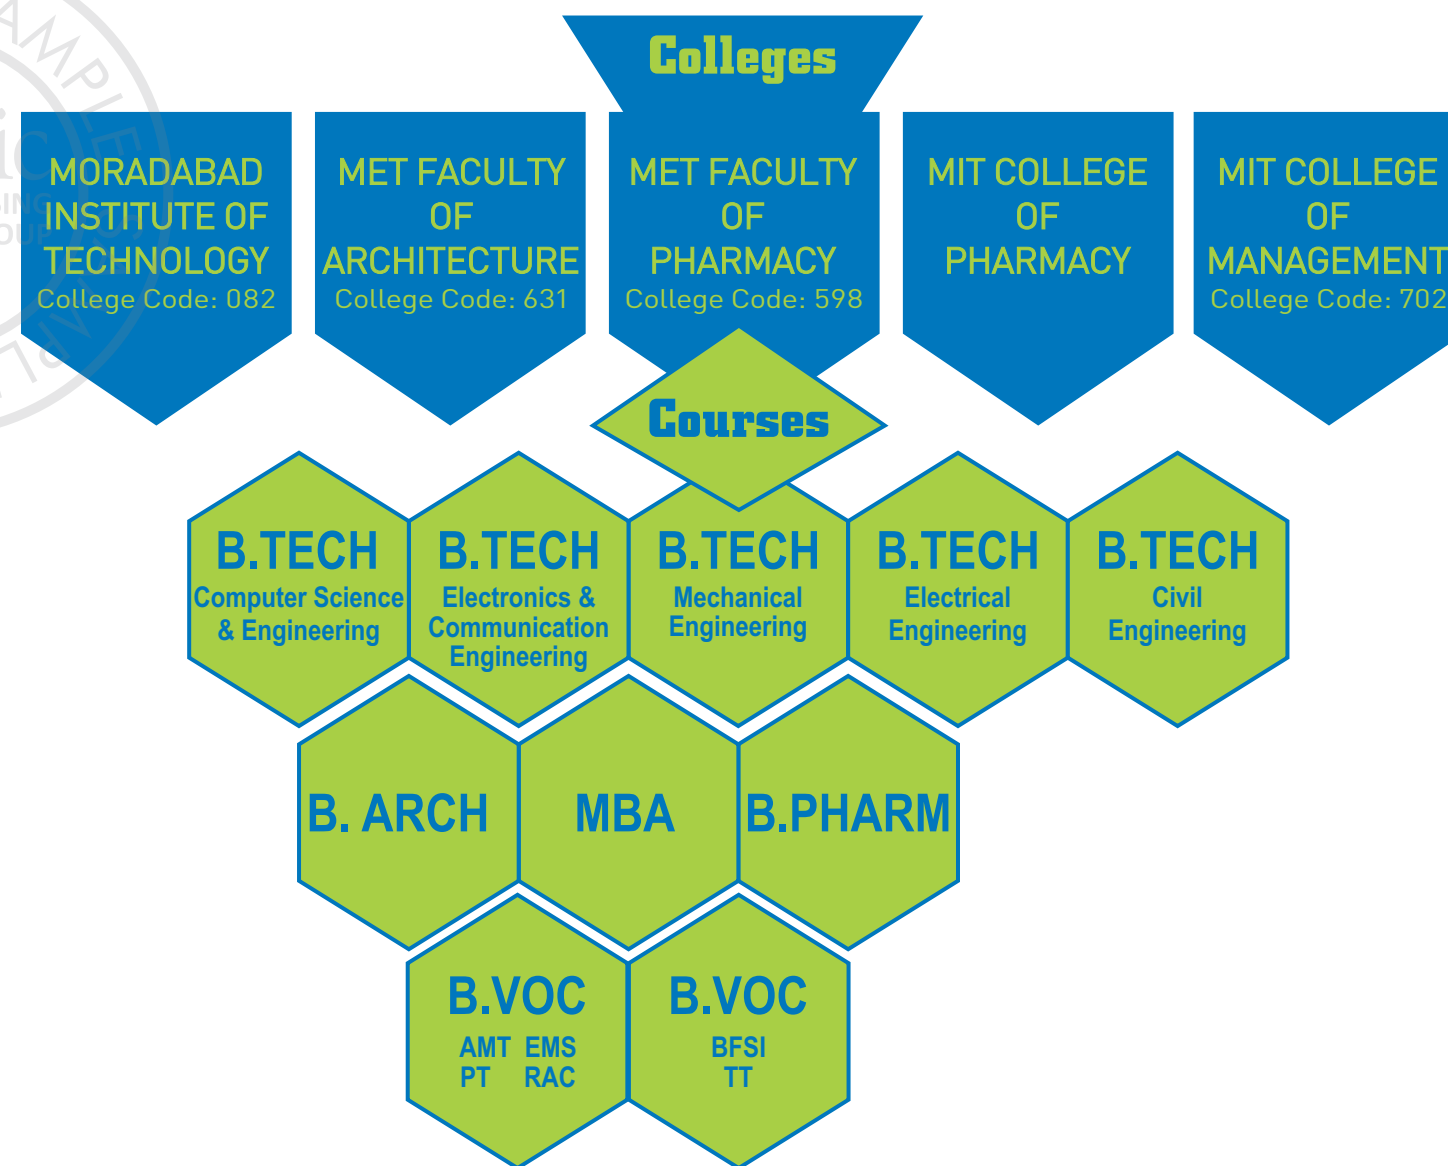

OUR MISSION

To transform the Institute into one of the leading technical Institutions of the country with the aim of producing engineering of high caliber having technical competence of internationally accepted levels with high professional ethics, national and human values and responsive to community needs.

OUR VISION

A technical education system producing skilled manpower of the highest quality to meet complex needs for the economic development of the country

VISION

A center of excellence in the field of computer science and engineering producing quality graduates as globally recognized professionals in industry and research organizations

MISSION

Impart quality education to achieve excellence in teaching-learning, research, high standards of professional ethics, transparency and accountability towards society.

ABOUT THE DEPARTMENT

The department of Computer Science & Engineering (CS&E) is one of the earliest departments, started in 1996. The department earned a very good reputation and achieved many milestones on its glorious path towards excellence in computer education in its journey of 22 year. Presently, the department runs the following undergraduate degree programme:

B.TECH

COMPUTER SCIENCE & ENGINEERING

The programme has been accredited thrice by National Board of Accreditation (NBA). The department is dedicated to provide the best education and practical facilities to its students. A variety of computing facilities are available for our faculty members, students and staff. We maintain a very conducive, feel at home and open culture in the premises, because we believe in the progressive enfoldment of the students towards becoming perfect IT Professional. To achieve this goal apart from regular studies, we cultivate the virtues of discipline, high moral values, competitiveness and team spirit in our students which lead to the overall personality development of the students. Departments consist of well equipped laboratories for separate computing platform, enabling the students to work with different cutting edges and hot cake technologies. Enough laboratory time is made available to the students for maximum upliftment of their software and design skills.

LABORATORIES

- Programming for Problem Solving Lab
- Data Structures using C/Java Lab
- Digital Logic Design Lab
- Discrete Structure & Logic Lab
- Computer Organization & Architecture Lab
- Database Management System Lab
- Design and Analysis of Algorithms Lab
- Operating System Lab
- Web Technology lab
- Principles of Programming Language Lab
- TAFL Lab
- Python Language Programming Lab
- Software Engineering Lab
- Compiler Design Lab
- Distributed Systems Lab
- Data Warehousing & Data Mining Lab
- Project Lab

LEADING PROJECTS UNDERTAKEN BY STUDENTS

Project work is most important and useful tool for students to learn and practice new technologies, ideas, innovations, team work and leading spirit. Some of the projects undertaken by our students are :

- Translaze- An Application that convert any sign board into English
- Phishing Detection using Machine Learning
- Smart Agriculture System based on the concept of IoT
- Diabetic Retinopathy detection from Retinal images
- Heart Disease Detection
- Development of an Android Application for Recognizing Handwritten Text on Mobile Devices
- Computer Aided Diagnosis System for Segmentation of Brain Tumor
- The Lightning Man Alive: 3D Game
- Municipal Grievance and Redress Application under smart city project
- Smart cane for Blinds
- Stock Market Analysis
- Clean City With Smart Dustbins
- YouTube Monetization
- AnyBody Can Do Database Management
- IOT based Digital Door Locking System
- Advance Home Automation Using Bluemix

GUEST LECTURES AND SEMINARS

To enhance the student's learning and providing the knowledge about Industry needs, advances in the technical world, practical applications, the guest lectures and seminars organized by the department from time to time. Eminent professors and personnel from the academia and industry are invited to deliver lectures / talks on various advance topics. Some of the lectures delivered in past are:

TOPIC	SPEAKER AND AFFILIATION
3-D Reconstruction in computer vision and Image water marking and its application	Dr. Balasubramanian Raman IIT, Roorkee
Data Mining and Its Application Golang and Blockly	Prof. Bharat Bhasker IIM, Lucknow Mr. Nitin Mittal Associate Manager, Global Logic, USA
Opportunities of higher education in USA Latest Trends in IT Industry	Dr. Suman Kalia City University, New York Mr. Hitesh Ajuha Senior Software Developer, Amdocs, Gurugram
Internet of Things(IoT) & Opportunities	Dr. Sharad Saxena, Associate Professor, Thapar University, Patiala
Multicast Security	Mr. Karan Singh, Assistant Professor, Jawaharlal Nehru University, New Delhi
Global Trends in Engineering Education Now days	Dr. Shridamas Das, Research & Innovation Head, Rankethon, IIT Kharagpur
Ethical Hacking	Mr. Vijay Dulam, Professional Ethical Hacker, Rankethon, IIT Kharagpur
Data Analysis by R Programming	Ms. Parul Yadav Asst. Prof, IET Lucknow
Large Network Analysis	Dr. Anurag Singh, Assistant Professor, National Institute of Technology, Delhi
Searching for a career via Search Engine Optimization	Mr. Gaurav Mehrotra, Senior Digital Marketer, ReportGarden Inc, Hyderabad
Cyber Security	Mr. Lovejot Singh Chhabra, Founder & CEO, Cyber Defense & Intelligence(CDI), Chandigarh

STUDENTS' SOCIETY

The department has computer science student's society (CSSS) run by the students. The society organizes group discussions, seminars, quizzes, personality development programs, etc. under the mentorship of faculty members.

DEPARTMENTAL LIBRARY

In addition to the central library, the department has its own library with a number of important text/ reference books available for the students and the faculty members in the department. Magazines related to areas of computer science and information technology, projects reports, and datasheets are also available here for reference.

DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING

HOD

HEAD OF DEPARTMENT

DR. KSHITIJ SHINGHAL

QUALIFICATION

Ph.D, M.Tech (EC), B.Tech (EC)

EXPERIENCE

Academic 22 years and Guided 08 M.Tech & 6 Ph.D.

AREA OF EXPERTISE

WSN, VLSI, Embedded Systems, Microcontrollers & Microprocessors

PUBLICATIONS

109 Research Papers,

BOOKS

10 National
4 International

VISION

To become a department with a strong research and teaching environment that adapts quickly to latest technological challenges.

MISSION

To become the best education system in Electronics & Communication Engineering discipline, offering quality education to students for successful career as Electronic & Communication Engineering profession.

DEPARTMENTAL LIBRARY

The Department has its own library. The library makes available a number of textbooks for the students and faculty members. Magazines, project reports, seminar reports, datasheets are also available for reference. The department library helps all the students a lot to search useful matter related to their courses which in turn improves their technical knowledge a lot. The latest magazines related to electronics gives the students a great idea about the new researches and projects in the corporate market. Some useful magazines available in the library are:

- Electronics For You
- Electronics For You Plus
- PC Quest
- Digit
- IT

ABOUT THE DEPARTMENT

The department has the ardent commitment to channelize the efforts of students and enhance their skills. The course of Electronics & Communication Engineering is composed of subjects giving extensive coverage to basic principles, and exposing students to both theoretical concepts and practical aspects. Special emphasis is given on microprocessor and its supportive chips, digital switching, Mobile communication systems, transmission network, satellite systems, digital signal processing and data communication network. The Department aims to develop specialized knowledge in Electronics & Communication Engineering with as much emphasis on theory as on practice to develop the student's skills in Electronics design manufacturing applications and repairs. The Department emphasizes the integration and application of computer, optoelectronics, VLSI Design, Embedded System, Communication System, Microwave and control to cultivate advanced specialists in Electronics Technology. The department is concerned about the professional needs of the students and arranges various in-house events such as technical events, guest lectures, seminars, Personality Development Programme (PDP classes), workshops, conferences etc.

ELECTRONICS ENGINEERING STUDENT'S SOCIETY (EESS)

EESS society aims in bringing out the innovative side of our students to use the techniques, skills and modern engineering tools. There are lots of events that EESS society organizes to enhance the skills of students. Some of the events are as follows:

- Creatronics 2
- BollySwaggers
- Twisty 60
- Techies
- Color Mania
- Midtown Madness
- English Hinglish
- Crikumbh
- Debate Competitions
- Your Quote- OpenMic
- Game of Talents
- Funkly, Telentino etc...

This society helps students to achieve the goal of an intellectual and thinking persons which always helps them in academics, curriculum and co-curriculum activities. This society has provided the platform for the students to help in their future career and enhance their soft skills. The skills they learn being part of the society are:

- Time and budget management
- Organization
- Commercial Awareness
- Communication
- Presentation
- Team Work

LABORATORIES

- Electronic Device Lab
- Electronic Circuits Lab
- Digital Electronics Lab
- Logic Design Lab
- Networks Lab
- Electronic Measurement Lab
- Electronics Workshop & PCB Lab
- Control System Lab
- Analog Integrated Circuits Lab
- Project Lab
- Digital Signal Processing Lab.
- Microcontroller Lab.
- Microprocessor Lab
- Communication Lab-1
- Communication Lab- 2
- Electronics CAD Lab
- Antenna and Microwave Lab
- Microwave & Fiber Optic Lab

CONFERENCE/ SEMINAR/WORKSHOP ORGANIZED

The department regularly organizes conferences/seminars/workshops for upgrading the knowledge of the faculty as well as students. Some of them are:

- Workshop on MATLAB
- Workshop on VLSI Design & Wireless Networking
- Workshop on Recent Trends in Communication & Networking
- Workshop on Embedded Systems & Robotics
- Workshop on PSPICE
- Workshop on Embedded Systems
- Workshop on Medical and Image Processing
- Short term training program on "MATLAB and ITS APPLICATIONS"

GUEST LECTURES

The Department organizes guest lecturers by prominent professionals and academicians from industries and reputed educational institutions, to keep the students abreast of recent advances in the technical world.

Some of the lectures delivered were:

TOPIC	SPEAKER AND AFFILIATION
Mr. Aamish Agarwal & Mr. Rohit Singh Tata Consultancy Services	Tips for Campus Recruitment
Dr. Manav Bhatnagar IIT, Delhi	MIMO Systems
Dr. Arti Bhatnagar NIEC, New Delhi	Basics of Probability
Mr. Mayank Goel Indian Railways	Signalling Systems
Dr. Sanjeev Rai Assistant Prof. MNNIT, Allahabad	VLSI Design
Dr. Arvind Kumar Assistant Pof. MNNIT, Allahabad	Wireless Sensor Networks
Mr. Praveen Singh Apron Solution Pvt. Ltd	MATLAB
Mr. Nitin Babbar CETPA, Noida	Wireless & Tele-communication
Prof.(Dr.) G.S. Tomar MIR, Labs India	Recent Trends in Wireless Communication
Sri. Rajkumar & Ms. Mainak Sr. Executive CETPA Infotech Pvt. Ltd. Noida	Embedded System & Its Application

FACULTY

LEADING PROJECTS UNDERTAKEN BY STUDENTS

Self-efficacy, a belief that one can achieve a certain level of attainment, is important to student retention in engineering and technology fields. Developing ways to increase self-efficacy should be a primary concern for engineering programs. Several key tasks will be investigated including the importance of design projects to self-efficacy in engineering. Our engineering students interactively and successfully designed and built the applications in the areas of wireless mobile communication, robotics, Solar energy, medical and health care devices, low power devices, and industrial instrumentation, among many other areas of interest. Some of quality and appreciated projects developed by students are as follows:

- Solar Panel With Sun Position Tracking System
- Wireless Water Level Controller Using Zigbee
- A Prototype of pie Drive
- GPS and GSM Based Accident Monitoring System
- Electronic Travel Aid System for Blind People Navigation & Monitoring
- RFID Based Biometric Electronic Voting Machine
- Radio Frequency Based Water Level Monitor and Controller
- Vehicle Accident Avoiding Future
- SMS Communication Through Li-Fi Technology
- Wireless Restrained Military Discoursed Robot
- Life Detection Robot
- ATM Security Using TAC
- Jeevan Rakshak Patient Monitoring System Using Matuino
- Advance Artificial Intelligence Based Security System
- Anti-Derailment and Health Facility (ADHF) system
- Bike and Rider Health Monitoring with Antitheft System
- Smart Wash Basin
- Smart iGlasses
- "BRHMAS- Bike and rider health monitoring with anti-theft System" won 2nd prize of Rs. 75,000/- in all India competition Smart India Hackathon-2018 (DST, IIM Bangalore).
- Smart Wash Basin" won 3rd prize of Rs. 50,000/- in all India competition Smart India Hackathon-2018 (DST, IIM Bangalore).
- "Anti-derailment and health facility (ADHF) system" fetched a grant of Rs. 20,000/- from CST, UP.
- "BRHMAS- Bike and rider health monitoring with anti-theft System" fetched a grant of Rs. 20,000/- from India Innovation Challenge Design Contest (IICDC) under DST & Texas Instruments.

GRANTS FETCHED

PATENTS

AWARDS AND APPRECIATION

- "Anti-derailment and health facility (ADHF) system" won 3rd prize of Rs. 50,000/- in state level competition organized by CST, UP.
- A Fixture for Avoiding Puncture in Two Wheelers
- Fatal Hazard Avoiding System for Staircases
- Rendition on Track Revealer
- Development of SMART SPIDER that will communicate with the external stakeholders and monitor the growth of Organic Button Mushrooms in an effective manner without the need for direct human intervention
- Automated agriculture system and a method thereof

Department organizes Industrial Visit regularly for Students development.

ME

DEPARTMENT OF MECHANICAL ENGINEERING

VISION

A technical education system producing skilled manpower of the highest quality to meet complex technological needs for economic development of the country.

MISSION

To develop the department as one of the best institute providing quality education, infrastructure and learning opportunity to students and staff and nurturing young students to excel in technical knowledge and groom into a responsible professional with high ethics and humanity.

STUDENT'S SOCIETY

Mechanical Engineering Student Society (MESS) aims to implant competitive skills in the students and works to upgrade the technical knowledge and aptitude of the students. This society organizes various programs such as quiz, crossword, debate, seminar, group discussion, and paper presentation. The events are organized in such a manner that the students can bring out their creative instincts which may lead to enhance their personalities. Apart from this, the students have an opportunity to get a few hours of relaxation and interaction.

HOD

HEAD OF DEPARTMENT

DR. MUNISH CHHABRA

QUALIFICATION
Ph.D.

EXPERIENCE
Academic: 18 years
Guided: 04 M.Tech.

ABOUT THE DEPARTMENT

The department offers B. Tech. Degree in Mechanical Engineering. These are designed to provide analytical and experimental skills required for a wide variety of careers in Mechanical Engineering and also in other multidisciplinary areas like Material Science, Production Engineering, Industrial Engineering, CAD/CAM, Automobile Engineering, Robotics and Management. The Department has developed the facilities required for imparting excellent training to meet the challenges of the 21st century and has to meet complex technological needs of the country in the particular, and of the world, in general.

LEADING PROJECTS UNDERTAKEN BY STUDENTS

Project work is most important and useful tool for students to learn and practice new technologies, ideas, innovations, team work and leading spirit. Some of the projects undertaken by our students are:

- Fabrication and control of compressor less refrigerator with help of IOT (Internet of Things).
- Oil spill and solid waste cleaner.
- Fabrication of Solar Electric vehicle.
- Fabrication of Automatic whiteboard cleaner (AWC).
- Design and fabrication of dust collector for polishing unit.
- Fabrication of Artificial soldier.
- Fabrication of Pneumatic operated Robotic arm (PORA).
- Design and development of low cost 3D printer.
- Energy efficiency enhancement of solar Photovoltaics by phase change materials.
- Feasibility analysis of evacuated tube collector for the purpose of drying and space heating.
- Fabrication of Pneumatic sheet cutter.
- Fabrication of model of smart parking system.
- Human assisted gesture dominated self balancing scooter (Hover- Trolley).
- To study the desalination rate of solar still using different absorbing material.
- To design and fabricate automatic seed sowing machine.
- Fabrication of smart wheel chair.
- Design & fabrication of multipurpose solar system.
- An automatic fire fighting Robot.
- Heat recovery system from the condenser of a Refrigerator.
- Design & fabrication of android controlled robotic arm for working in Hazardous environment for human beings.

CONFERENCE AND WORKSHOP ORGANIZED

- Workshop on "Advance Metal Finishing Techniques" Organized by MSME-Technology Development Centre (PPDC Agra) & Central Electrochemical Research Institute (CSIR) in association with the department of Mechanical Engineering, Moradabad Institute of Technology.
- Faculty Development Program on "Advances in Thermal Science & Technology" sponsored by Dr. APJ Abdul Kalam Technical University, Lucknow.
- Faculty Development Program on "Green Tribology" sponsored by Dr. APJAK Technical University, Lucknow. (TEQIP - III)

LABORATORIES

- Computer Aided Manufacturing Lab
- Refrigeration & Air Conditioning Lab
- Fluid Mechanics & Machinery Lab
- Measurement & Metrology Lab
- Material Science & Testing Lab
- Applied Thermodynamics Lab
- Heat & Mass Transfer Lab
- Mechanics of Machines Lab
- Computer Aided Design Centre
- Research & Development Lab
- Automobile Lab
- Machine Shop
- Manufacturing Lab

DEPARTMENT OF MECHANICAL ENGINEERING

CONSULTANCY

Department offers consultancy in the areas of material testing, renewable energy, manufacturing & CNC Programming etc.

National - 08

VISION

To provide high quality education, which allows the students to realize their aspiration, potential and to encourage and support creative and innovative projects & activities, to become industry-ready or pursue higher studies of their choice.

MISSION

To be recognized as an international leader in Engineering education, research and the application of knowledge to benefit society globally.

DEPARTMENTAL LIBRARY

Apart from central Library, department also has its own Library for quick reference facility to students and faculty members. It has a rich collection of documents which include books and bound volumes of project reports. However substantial quality information sources on humanities and social sciences are also available.

CLASS ROOMS

Well Furnished Lecture and Tutorial rooms as per AICTE norms.

ABOUT THE DEPARTMENT

The Electrical Engineering Department of MITGI aims to provide high quality education, which allows the students to realize their aspiration, potential and to encourage and support creative and innovative projects & activities, to become industry-ready or pursue higher studies of their choice with the vision to be recognized as an international leader in Engineering education, research and the application of knowledge to benefit society globally. Department hold the distinction of imparting education in various fields such as Electrical Machines, Power System, Electrical Drives, Control Systems and Biomedical Engineering. The degree course spans over a period of four years in eight semesters and curriculum is as per the Dr. A.P.J. Abdul Kalam Technical University (APJAKTU, formerly UPTU).

ACHIEVEMENTS

- Priya Agarwal Student from EE batch scored 2nd rank in AKTU.
- Projects sponsored by UPCST
- Highest no. of Students qualified for GATE 2018-19.
- Students won in zonal & State Level Literary, Art & Sports Competition Organized by AKTU.

STUDENT'S SOCIETY

Electrifying Student Society (ESS) Student Society, has a tag line as, "Energizing Enthusiasm", aims to impart competitive skills in the students & works to upgrade the technical knowledge and aptitude of the students. Events organized by the society are Bollywood Trivia, Sports Carnival, Out of the Box, Techno-fight, Back to School, Foodies War etc.

LABORATORIES

- Basic Electrical Engineering Lab
- Electrical Machine Lab I & II
- Power System Lab
- Power Electronics Lab
- CAD & Simulation Lab
- Electrical Instrumentation & Measurement Lab
- Control System Lab
- Electric Drives Lab
- Electrical Workshop Lab

Prof.(Dr.) S.P.Gupta Former Dy. Director,
IIT, Roorkee Electrical Engineering

SEMINAR /FDP/WORKSHOP ORGANIZED BY DEPARTMENT

- One-Week **Faculty Development Programme** on "Challenges & Opportunities in Energy Sector for Smart India" **Sponsored by Dr. A P J Abdul Kalam Technical University, Lucknow** organized by Electrical Engineering Department. This programme was a combination of theoretical exercise & laboratory experiments. The aim of this faculty development programme is to provide exposure to faculty members and faculty staff to the concepts of Challenges and Opportunities in Energy Sector for Smart India.
- 2 days National Seminar** on "Technological Scopes in Nurturing Smart India (TSNSI)" sponsored by AKTU. Experts from Industry, Faculty, Students from various Institutions presented their research papers.
- Department organize **workshop** aiming to provide an opportunity for students, academicians, consultants, industry participants, researchers and scientists to come together and discuss various problems.

FACULTY

Name	Designation	Highest Qualification
Dr. Rajul Misra	Associate Professor	B.Tech, M.Tech, Ph.D
Mr. Alok Agarwal	Assistant Professor	B.Tech, M.Tech, Ph.D (P)

VISION

To produce competent, confident and quality civil engineers adorned with ethical values to successfully meet the changing technological needs and to develop technologies through research, and innovations for the economic growth of the nation.

MISSION

- To impart quality education to meet the needs of profession & society.
- To impart problem-specific training & skill development.
- To provide an environment conducive to creativity, innovation, entrepreneurship and team-spirit.
- To provide interactions with people and organizations involved in design and construction of civil engineering structures.

PLACEMENT OPPORTUNITIES

Dream job opportunities in government as well as private sectors are available for Civil Engineering graduates. The popular professions range from construction, consultancy, structural design, water and wastes management, air & noise pollution control, hydropower, infrastructure related industries and research institutes. The Department maintains liaison with Training and Placement cell to arrange campus interview by inviting companies and reputed public sector undertakings. In addition, a number of software and I.T companies also visit the campus for recruitment of graduates. The placement record of students for the last three years has been very encouraging.

ABOUT THE DEPARTMENT

Engineering has been an important aspect of life since the beginning of human civilization. Civil engineering is regarded as the mother of engineering and is one of the core and oldest branch of engineering. Its history is closely linked to advances in human civilization and is basically related to the creation of various types of structures and their maintenance. Civil engineering is a wide ranging profession, covering construction, designing and maintenance of buildings, bridges, roads, dams, canals, irrigation & water supply system etc, and is linked to knowledge of structures, materials science, geography, geology, soil mechanics, hydrology, environmental science and many other fields.

Civil Engineering at M.I.T. Moradabad was started in 2009, to make its contribution towards the development of the society. It was started with an intake of 60 students in the session 2009-10, which later on increased to 120 in the session 2012-13 in view of increasing demand from students. The department has a four storied building with eight different fully equipped laboratories. It offers a four-year degree course leading to the **Bachelors degree** in civil engineering. It trains the students on various modern softwares like **AUTOCAD, STADD, SAP2000, GEO-5** etc. and equipments like **TOTAL STATION, G.P.S.** etc., which bridges the gap of academic and professional field. The faculty of Civil Engineering at M.I.T. is continuously making efforts to impart quality teaching at the undergraduate level to attain excellence and thus to empower students to meet the technological needs and socio-economic challenges.

SCOPE OF CIVIL ENGINEERING

RESEARCH WORK:

Research is carried out in different areas of civil engineering. Laboratories of the department provide the teachers and students at MIT a unique opportunity to carry out exploratory study into the realms of Engineering. Research interest of civil engineering faculty include

- Reliability based design
- The static and seismic stability of natural and excavated slopes
- Ram Ganga River Pollution Monitoring
- Sustainable urban development
- Noise Pollution Indices study and mapping
- Environmental Management and Policy analysis
- Pavement and Transportation materials
- Transportation system analysis
- Structural Health Monitoring
- Solid industrial waste management – utilization & disposal
- Geo-hazard with particular reference to Landslide.

INDUSTRIAL VISIT FOR STUDENTS

DEPARTMENT OF CIVIL ENGINEERING

GUEST LECTURES

In civil engineering dept., emphasis is given not only on making the student academically brilliant, but true leaders and team players, thus preparing the student for real world.

This is done by inviting people from industries and top intuition to provide valuable information to our students. Recent guest lectures are as follows:-

Name of Expert	Topic of Lecture	Expert's Organisation
Dr. Manojit Samanta	Geosynthetics in Ground Improvement	Senior Scientist, Central Building Research Institute (CBRI), Roorkee
Mr. Ashish Kumar Patra	Innovative & Reliable and Slope	Director, OST Slope Protection Engineering Pvt Ltd. Gurgaon
Prof (Dr) Chandan Ghosh	Evaluation of Liquefaction and Mitigation Measures	Professor & Head (Geohazard), NIDM, New Delhi
Dr. Manojit Samanta	Ground Improvement Techniques	Senior Scientist, Central Building Research Institute (CBRI), Roorkee
Dr. P.K.S. Chauhan	1. Geophysical Exploration (Seismic, resistivity and georadar methods) 2. Introduction to seismotectonics	Principal Scientist, CBRI Roorkee
Mr. K.K. Pande	Challenges in Construction Field	Technical Expert from A.C.C.
Prof. Pratima Rani Bose	Introduction to vibration theory and earthquake safety as per code – IS : 1893	Associate Director, DDF Consultants Pvt. Ltd., Delhi
Prof. Amit Kumar Bose	Role of Architects & Civil Engineers in earthquake disaster mitigation & management	Director, DDF Consultants Pvt. Ltd., Delhi
Dr. Lakshmy Parameswaran	Design & Construction of Bridge & Cross drainage structure – An	CSIR – Central Road Research Institute Delhi
Dr. D.K.Paul	Earthquake and Earthquake Effects	Emeritus Fellow, Deptt. of Earthquake Engineering, IIT, Roorkee
Prof.A.Ghosh	Solid industrial waste utilization in the domain of waste to wealth	Chief Scientist and Advisor, C.B.R.I., Roorkee
Prof. Dr. S.K.Ghosh	Application of Geomatics Techniques	IIT, Roorkee
Er. (Retd.) R.K. Agarwal	Bituminous Road Construction in India	PWD (UP)
Prof. P.K. Garg	Use of Modern Instrument in Engineering Surveying	IIT, Roorkee

STUDENT SOCIETY

Civil Engineering student society (CESS) is an active & vibrant body managed by the students of the department. CESS organizes college level competitions on different aspects. Large number of students participate in this competition. Top teams are awarded with prizes.

VISION

Imparting basic knowledge of science and human values for the benefits of the society through education system, for laying a strong foundation at the beginning level of engineering to meet complex technological needs of the society.

MISSION

To transform the department into one of the leading departments by providing the required high quality infrastructure, professional values and ethics with strong bedrock to excel in technical knowledge.

ABOUT THE DEPARTMENT

The growth of human civilization is the manifestation of advances in science with its applications in the form of engineering, technology, medicine and other applied branches. Since the universe came into existence and the lives on the earth planet started, human being initiated to discover. But the human civilization has many dimensions highly interwoven with science, art, culture, behavioral science etc. Hence, the education of science and engineering must include social and behavioral science where the students can navigate the judicious application of scientific principles along with human moral and social understanding.

The Department of Applied Sciences and Humanities, following its basic ethics, imparts excellent quality education in the areas like Physics, Chemistry, Mathematics, Professional Communication, Management Studies, Environmental Studies, and Sociology to the future technocrats of all streams and enhances innovative thinking among them.

For the fulfillment of teaching and research goals, the Department has 15 competent faculty members including 12 Ph.Ds, with a high degree of excellence, who keep pace with the current developments in their fields of specialization. The department provides ample opportunities and facilities for research and development along with well-equipped state-of-the-art Physics and Chemistry laboratories. Living in an era of communication, the Department also boasts of its possession of two state-of-the-art Language Laboratories.

SPECIALIZATION IN BASIC SCIENCES

The following are the specializations in basic sciences.

Physics	Chemistry	Mathematics
• Nanotechnology	• Water Pollution	• Fluid Dynamics
• Optical Memories	• Extraction of Metal from Alloys and allied Wastes	• Sampling Theory
• Photovoltaic Cells		• Operations & Research

LABORATORIES

THE LANGUAGE LABORATORY

Communication skills have become indispensable for the success of any professional. The English language in particular has become essential in the lives of young people, who aspire to advance their careers anywhere in the world. The linguistic lab plays a vital role in the language learning process. The department of AS&H possesses the two state-of-the-art, digital language laboratories that outsmart even those of the most leading government and private engineering institutes of India. These labs have number of highly advanced facilities that help the students to learn English language with proficiency. Both the labs have been well equipped with extensive superior quality English learning software such as

Clarity English Teaching Software that includes Tense Buster, Report Writing, Business Writing, Issues in English and Study Skills Success.

Clarity Snetclass Communication lab that includes Start Learner, Clarity English Success and Situational Dialogues with videos.

These softwares help the students in self learning process. There is a Plasma Display panel and LED/TV in both the labs, which enable the students to excel in the areas of the technical presentation. Various videos on GD, interviews and Personality development are shown to the students time to

time. Wide varieties of activities like debates, presentations, GDs, story telling etc enhance the communication skills of the students and help their personality development.

THE PHYSICS LABORATORY

Physics is the backbone of science as it is synonymous about findings reasoning and establishing laws. The department of AS&H has a highly well equipped Physics Lab with a spacious Dark Room. All the experimental setups conform to the requirement of University. In all, there are around 40 fully functional apparatus in the lab. All the apparatus used are calibrated by the faculty from time to time.

Some of important instruments/setup include the following:

- Newton's Ring Setup
- Fresnel's Biprism
- Diffraction Grating Setup
- Energy Band Gap
- Hall Effect Setup
- Nodal Slide Setup
- Tangent Galvanometer
- Carey Foster's Bridge

THE CHEMISTRY LABORATORY

In the domain of Science, Chemistry encompasses a wide spectrum involving processes of preparation all metals, non-metals, plastics, mixtures, various minerals and chemicals, compounds, etc. All the living and non-living beings in the universe are full of chemistry.

The chemistry lab of the department is well equipped with state-of-the-art technology having various equipments and glassware. The lab offers a complete requirement as per AKTU syllabus.

The notable equipments of the chemistry lab include the following.

- Automatic weighing balance
- Calorimeter
- Magnetic Stirrer
- Distillation Unit
- pH meter
- Volumetric titration equipments

ARCH

FACULTY OF ARCHITECTURE

HOD

HEAD OF DEPARTMENT

Ar Barkha Kataria

QUALIFICATION
M.Arch

EXPERIENCE
18 Years

AREA OF EXPERTISE
Designing, Planning & Interiors

VISION

"From access to quality" – in all spheres, so as to project the School as a Centre of Excellence which brings in the desired self respect, sense of pride, an inherent moral responsibility and confidence for self entrepreneurship among its students.

MISSION

Building an environment which promotes research, inquiry, creativity, innovation, learning and technology appropriate for a modern India as well as the expanding international market involving collaboration with industry, institutions of higher learning and other stakeholders to assure contextual and the quality education through development of a missionary zeal amongst teachers towards the cause of education in general, welfare of the students and intrinsic development of the Institute which can be brought about only by shifting the management of learning, from the realm of individual to the domain of networked groups for best transfer of knowledge.

MET FACULTY OF ARCHITECTURE

MET Faculty of Architecture, established 10 years ago by Moradabad Educational Trust is one of the premier architectural education institutions in the State of Uttar Pradesh. It runs three 5-year Degree Programs leading to the award of Bachelor Degree in Architecture (B.Arch – General), by Uttar Pradesh Technical University.

STUDENTS' works VISIONS & DREAMS

MESSAGE FROM HEAD OF THE DEPARTMENT

It gives me immense pleasure in adding a few lines to the annual information Brochure on behalf of the Faculty of Architecture and the entire campus community of this prestigious Institution. Today's small and well-knit World Community, Architects, by way of their educational program, training, planning skills and practice become not only the creators of Buildings but, the shapers of the Society, Skillful planning of the Urban and Rural sectors for development not only preserve the socio-cultural ethos and the natural environment of the area but, shapes the lifestyle, discipline, work culture and the behaviour of the individuals and the society at large. In the MET Faculty of Architecture our endeavour is to guide and train students with the best of National and International skills & procedures of planning, designing & education with the knowledge of the best of Norms & standards practiced globally and prepare them excellent, well equipped, confident Architects ready to face the World. Every semester we invite renowned experts, both academicians as well as professionals, with both national and international repute for expert lecture. Furthermore, various workshops are also organized time to time for the students to have in depth knowledge about the building materials, tools and equipments as to help students grow not only in academics but also as a professional, keeping in view their future as fellow architect, academician and researcher.

We look forward to being recognized as one of the premier institute worldwide. To achieve this goal, the Institute has actively started connecting with the world of practice and policy, with academic works nationally as well as globally with the help of our alumni and the professionals. Emphasis is given to nurture ethical values and inculcating an environment, where in a high degree of individual imaginative power, creativity and team spirit is developed.

ABOUT PROFESSION OF ARCHITECTURE

Architecture is concerned with design and construction of buildings. Professionals, involved in the process of design and execution of buildings, are called "architects". A degree of architecture affords a wide range of career opportunities: from employment with the government in construction, design and planning divisions; to serving large private and multinational companies; to employment with private architectural firms and construction agencies. Many serious students of architecture are even taking up teaching and research in architecture as their full-time career pursuits. However, the most endearing option for the architects is of self employment satisfying the creative urges of an individual with equitable financial rewards.

Further studies at post-graduate level can be in disciplines such as urban design, planning, construction management, interior design, conservation, landscape architecture etc., all of which go as far as doctoral programs. Economic planners and social scientists realise the importance of architects in all economic and rural sector upliftment and insist on their participation in the implementation of major governmental policies.

ARCHITECTURE AS A CAREER OPTION

With the professional disciplines and institutions having increased over the last ten years in developing India, the biggest dilemma of a student, just out of school after his/her Intermediate (10+2), is choosing a career for oneself. A student, wishing to pursue a professional course, now can opt for a career of his choice commensurating with an individual's aptitude, competency, attitude, financial constraints and accessibility. In the present scenario, a very large number of awakened students are opting for architecture as a career option because of the freedom and opportunities it affords for excellent placement in India and abroad. To students of architecture, with a flair for creativity, drawing and an aptitude for good things in life, "sky" is the limit after graduation. Consequently, there is an increasing recognition of architecture as one of the top intellectual disciplines, an art form, and a technical profession intimately linked with the single largest sector of economy (construction).

EDUCATIONAL TOURS

Of the various methodologies adopted by MET Faculty of Architecture, for its students (most of whom are from modest backgrounds), to keep abreast of vernacular architecture as well as contemporary developments, is inclusion of short and long educational tours in their curriculum not because these have been made mandatory by approving authorities but essentially because, we, at MET Faculty of Architecture, believe that there is absolutely no alternative to field studies and gaining first-hand experiences.

The students' long educational tours, over the last four years, bear testimony to the aforesaid. Long educational tours to Jaipur, Ahmedabad, Lucknow & Dubai, for students envisaged over the last three years, is a step in the direction of exposing our students to whatever best is available irrespective of their financial constraints.

QUALIFICATION
M. Pharm., Ph.D

EXPERIENCE
19.5 years

AREA OF EXPERTISE
Pharmaceutical Sciences

PUBLICATIONS
43 Research Papers

VISION

"From access to quality" - in all spheres, so as to project the school as a Centre of Excellence which brings in the desired self respect, sense of pride, an inherent moral responsibility and confidence for self entrepreneurship among its students.

MISSION

Building an environment which promotes research, inquiry, creativity, innovation, learning and technology appropriate for modern India as well as the expanding international market involving collaboration with industry. Institutions of higher learning and other stakeholders to assure contextual and quality education through development of a missionary zeal amongst teachers towards the cause of education in general, welfare of the students and intrinsic development of the Institute which can be brought about only by shifting the management of learning, from the realm of individual to the domain of networked groups for best transfer of knowledge.

PHARMACY AS A PROFESSION

Pharmacy is the health profession that has the responsibility for ensuring safe, effective and rational use of medicines. A pharmacy professional is involved in the manufacture, sale of drugs and new drug discovery and development. Pharmaceutical research & development (R&D) is regarded as a vital component of drug development strategy that provides a sustainable, long term competitive advantage. The rapidly changing economic, trade and intellectual property scenario nationally and internationally poses many challenges. This necessitates a shift in the approach of the pharmaceutical industry to move away from manufacturing only known drugs through innovative process routes to discovering and commercializing new molecules. Pharmacy graduates seek their career in manufacturing, quality assurance & control, formulation & development and sales and marketing.

Course Compulsory Subjects Anyone of the following Subjects

B.Pharm Physics & Chemistry Mathematics/Biology

D. Pharm Physics & Chemistry Mathematics/Biology

For admission in B.Pharm. II year (Lateral entry)

Candidates who have passed Diploma in Pharmacy (D.Pharm.) from recognized Board/University/Institution.

EDUCATIONAL VISITS

Faculty of Pharmacy regularly organizes educational visits for students to keep them up to date with the latest technologies employed in Pharmaceutical Industries. These visits also provide a platform for students to interact with experts of industries.

ABOUT THE DEPARTMENT

Faculty of Pharmacy established in year 2009 by Moradabad Educational Trust is one of the premier institutions imparting education in Pharmaceutical Sciences in Uttar Pradesh. The Institute offers 4 years degree course (B. Pharm.) and 2 years diploma course (D. Pharm.) in Pharmacy. The Institute is affiliated to Dr. A.P.J. Abdul Kalam Technical University, Lucknow for B. Pharm. course & Board of Technical Education, Lucknow for D. Pharm. course; approved by All India Council for Technical Education (AICTE) and Pharmacy Council of India (PCI), New Delhi.

SEMINAR AND CONFERENCE

Faculty of Pharmacy regularly organizes the guest lectures, seminars, conferences and workshop to keep students updated with latest trends in the field of pharmaceutical sciences.

TRAINING AND PLACEMENT

The Institute has collaborations with various pharmaceutical industries and institutions for training and placement. Many students were selected in pharmaceutical industries e.g. Genpact Health Care, Nouveau medicament Pvt. Ltd., Abbott India Ltd., Akums drugs & Pharmaceuticals Ltd. etc.

INFRASTRUCTURE AND FACILITIES

LIBRARY

The institute has digital library which provides a cozy and peaceful atmosphere for students. The library has more than 5,000 books on various core subjects in Pharmaceutical Sciences. It is also rich in a wide range of reference books. The institute subscribed 20 national/international journals and e-journals. The institute is also an honorary member of globally recognized digital library network DELNET. The institute publishes an international journal "MIT International Journal of Pharmaceutical Sciences"

LABORATORIES

The institute has state of the art laboratories for industrial training. The laboratories are well equipped with modern instruments and equipments. The major laboratories are as follows:

PHARMACEUTICAL CHEMISTRY LAB

It is meant for test and identification of impurities, synthesis and purification of chemical compounds and analysis of biological samples like urine, blood etc.

MEDICINAL CHEMISTRY LAB

It is meant for synthesis, purification and identification of medicinally active compounds.

PHARMACEUTICAL ANALYSIS LAB

It is meant for analysis, quality assessment and quality control studies of drugs and pharmaceuticals.

PHARMACOGNOSY LAB

It is meant for extraction, isolation, purification, identification and evaluation of active constituents from medicinal plants.

PHARMACOLOGY LAB

The pharmacological studies of drugs and crude extract on experimental animals are carried out. The new drug molecules are also screened to determine their pharmacological activities and side effects.

PHARMACEUTICS LAB

It involves formulation & development of new dosage form, new drug delivery systems, controlled release formulations and stability studies.

CENTRAL INSTRUMENTATION FACILITY

It is equipped with sophisticated instruments like UV- visible spectrophotometer, HPLC, Brookfield viscometer, Flame photometer and polarimeter etc.

COMPUTER LAB

The institute has a well equipped computer lab with 40 computers updated with advanced software and broadband internet connectivity.

MEDICINAL PLANT GARDEN

The medicinal plant garden has more than 100 medicinal plants including some rare species.

ANIMAL HOUSE FACILITY

The institute has CPCSEA approved animal house facility for pharmacological activities and research work

MBA

DEPARTMENT OF MANAGEMENT

VISION

A Management education system producing skilled manpower of the highest quality to meet complex managerial needs for economic development of the country.

MISSION

To transform the institute into one of the leading management institution of the country with the aim of producing managers of high caliber having managerial competence of internationally accepted levels with high professional ethics, national and human values and responsive to community needs.

MBA COMPUTER LAB

Computer Lab is well equipped with TFT screen computers and 24 hour Wi-Fi connection. All system are properly networked on LAN which is connected to the main server.

MASTERS OF BUSINESS ADMINISTRATION

The MBA course aims at providing inputs to the students relevant to the business, industry and trade so that they can function in different organizations and face the challenges arising there from. The course not only aims at providing knowledge and skills in different areas of management, but also provides inputs necessary for the overall development of the personality of the students.

DEPARTMENT OF MANAGEMENT (082) MIT COLLEGE OF MANAGEMENT (702)

The Department of Management and MIT College of Management were established in 2008 and 2010 respectively with an objective to impart practical management knowledge and nurture leadership. Both entities strives for maintaining reputation for quality teaching, field based assignments, case based learning, and productive learning based internship with final placement in reputed organizations. They have evolved a comprehensive student centric learning approach consisting of several stages, designed to add significant value to the learners' understanding in an integrated manner.

Students are open to the elements of their specialization subjects viz; Marketing Management, Human Resource Management, International Business Management, Information Technology and Financial Management through practical via case studies, workshops, lectures/seminars conducted by senior practicing managers from the corporate world. Our academic program is comprehensive and rigorous-aimed at nurturing with sound knowledge, application, skill, analytical bent of mind and enthusiasm for work. We at MIT emphasize on both skill and knowledge development through case and project students' based teaching methodology.

STUDENT'S SOCIETY

MBA students' society is formed to look after students' overall development in sphere of personality and intellectual development. The main objective is to give students a platform to show their creativity, capability for event management, communication skills and to ensure a sense of competition amongst them.

The students' society at MIT MBA is truly diverse as students come from different social and cultural backgrounds, and walks of life. As a member of students' society, they get an unparalleled exposure to different cultures, languages, and way of living. Following are the three main student's societies apart from the cultural society:

- Student Finance Society
- Student Marketing Society
- Student Human Resource Society

The events are organized to bring out creative instincts of the students which enhances their personalities. The regular events under these societies are: Cultural Events, Alumni Meet, Debate Competition, Collage Competition, Quiz Competition, Group Discussions, Mock Interview Sessions, Brand Logo Competition, Sports Competition etc.

GUEST LECTURES

Guest Lectures play an important role in the development process of the students. Eminent academicians and practicing professionals are invited for guest lectures where students get an opportunity to interact closely with them and understand the practical applications of various management and information technology concepts and ideas. Through these activities, students get acquainted with leadership roles, develop group and interpersonal skills and develop the right kind of attitude for success in their careers.

Central library is one of the central support services of the institute. The mission of the central library is to provide information services and access to bibliographic and full text digital and printed resources to students, faculty and staff of the institute. The central library is well equipped with all modern facilities and resources in the form of CD-ROM, Online database, books, journals, standards, and reports etc. It is fully computerized in its operations and services. Central library is committed to provide a world class information support to its users. It is located in the Academic Block- B. It has a rich collection of over 81,391 volumes and 8055 titles. The collection is mainly strong in science & technology. However substantial quality information sources on humanities and social sciences are also available. We are currently involved in utilizing the networked information resources for providing recent and most comprehensive access to e- journals, e-books, e-patents and other e-reference resources to the faculty, student, staff, industries, and alumnus under intranet and internet environments.

JOURNALS:

Central Library subscribes to more than 54 print journals and 275 e-journals in the field of technology, applied sciences and management. Prints as well as e-journals are subscribed on the recommendations received from the academic departments. Print journals are displayed in the wooden display racks kept in periodical section. There is separate section to refer to print journals. All back volumes have also been arranged here for reference and issue.

OPAC (ONLINE PUBLIC ACCESS CATALOGUE)

Online public access catalogue is available in library for the use of students, faculty and staff members. OPAC provides access to the library holdings through various catalogue and indexes such as the author catalogue, the title catalogue, the subject catalogue and the classified catalogue. Also possible are words-based combination searches using boolean operators that yield highly satisfying and precise result, however complex the query may be. In addition to this OPAC allow to the users to know about their account such as what is due on his/her account, what is due date for returning the material issued to them.

ELECTRONIC RESOURCE ACCESS CENTRE

There are 25 computers with high speed internet in EARC. The purpose to establish the centre is to provide e-resources facilities to the student & faculty members. Users may access, read or download the e-resources e.g. e-books, e-journals, e-magazine, e-newspaper etc. In addition to this the users may watch NPTEL video lectures of their interest here, which have been prepared by eminent professors of IITs & IISc. Very important is a LED TV to watch channels of swayam prabha in this centre. The swayam prabha is a group of 32 DTH channels devoted to telecasting of high quality educational programmes on 24X7 basis using the GSAT 15 satellite.

REFERENCE SECTION

The research reference and information services section contains research and reference tools such as atlases, bibliographies, bibliographical dictionaries, data books, dictionaries, (General and Special) directories, encyclopedias, gazetteers guides to literature, hand books, maps, thesaurus, etc. All queries about research problems and scientific information should be addressed to this section.

TEXT BOOK LOAN SCHEME:

The text book loan scheme section contains 27000 (approx) recent editions of the text books prescribed for study at B.Tech. level. A student may become a member of the scheme on payment of prescribed fee. 6 books to each student are issued for a period of one semester under this scheme. In addition to the central library, there are four other libraries of different institutes in MITGI.

1. Faculty of Architecture library
2. Faculty of Pharmacy library
3. MIT College of Management library

All the three libraries are well stocked with a wide range of books periodicals, journals and magazines relevant to the field. These libraries are well organized and operate on 'Open Access system and full computerized operations and services.

CAMPUS FACILITIES

HOSTELS

The Institute has separate boys and girls hostels providing accommodation to the students.

TRANSPORT

Transport is provided to the inmates of the Boys Hostel for conveyance between the hostel and the institute including their to and fro movements for lunch. Transport is also available for any medical problem of the staff and students.

MEDICAL

First aid facility is provided to students and staff, free of charge. An in house dispensary is available, with doctor and compounder in the campus for any emergency.

MULTIMEDIA ROOM

The Institute has an air conditioned multimedia Room equipped with LCD, sound System, video conferencing facilities, with a capacity of 60, where we can arrange lectures from any part of India and abroad.

CAFETERIA

A large institute cafeteria provides refreshment facilities to the students, faculty and staff.

INTERNET

The Institute provides internet facilities to all students through Wi-Fi and Cable mode. It has 112mbps leased line. It is available 24 x 7 in the campus.

Performance enhancement of Solar PV System using metallic fins and phase-change material	AKTU	4.80 Lakh

MIT PUBLICATIONS

Moradabad Institute of Technology under the name of MIT Publications publishes international academic journals in the field of Pharmaceutical Sciences and Engineering & Technology. These journals aim to promote the integration of research and innovation in all important areas of our focus viz. Computer Science, Information Technology, Electrical & Instrumentation, Electronics & Communications, Mechanical and Pharmaceutical Sciences. At present following journals are being published under MIT Publications:

MIT TRANSACTION: An International Journal of Advance Engineering Science And Technology

MIT International Journal of Pharmaceutical Sciences (MITIJS)

For more details visit to: <http://www.mitpublications.org>

TRAINING PLACEMENT & CORPORATE AFFAIRS

TP&CA

The Training & Placement office of MIT Group of Institutions is a hub of interaction between the HR Executives looking to hire the best talent and the students who are waiting to give their careers a wing. We have been continually and consistently recording high placements – both in the core sector firms to the IT/ITES companies TCS, HCL, Tech. Mahindra and more than 100 companies have been regularly visiting our campus for recruitment. This we owe to the analytical and technical skills that are imparted to our students along with their prescribed curriculum. Our students have been able to start their careers right out of the college And we are proud of their achievements also we seek to form a mutually beneficial and enriching experience with your esteemed organization.

I also welcome interaction with industries at various levels, such as, guest lectureships, workshops, mentorship, joint R & D projects, etc. I extend warm invitation to the organizations/companies seeking to recruit fresh graduates and engineers to our serene campus for selecting human resources that is par excellence.
