Lucknow (U.P.)

SUB: Suggestion regarding Evaluation Scheme.

Sir,

As per faculty and student's feedback regarding modifications in University evaluation scheme, we would like to request you to kindly shift your attention on following points.

1. Some new practical should be included in power system subject.
2. In curriculum of Second year industrial exposure with mini project should be incorporated.
3. For the ME students Engg. Mechanics should be included in syllabus.
4. Syllabus of some subjects such as DOM, Fluid Mechanics & Machinery and Manufacturing Process should be split in two parts as earlier.
5. KMBFM04 working capital management paper should be dropped as the paper has lost its relevance in the current scenario.

With regards

SUB: Suggestion regarding Evaluation Scheme.

Sir,

As per faculty and student's feedback regarding modifications in University evaluation scheme, we would like to request you to kindly shift your attention on following points.

1. Some new practical should be included in microprocessor & microcontroller subject.
2. In curriculum of Second year industrial exposure with mini project should be incorporated.
3. For the ME students Engg. Mechanics should be included in syllabus.
4. Labs of core subjects such as computer aided manufacturing & Engineering Mechanics should be incorporate in curriculum.
5. In paper code KMBFM05 Financial Derivatives paper commodities derivatives should also be included in the syllabus.

With regards

Registrar

Department of Mechanical Engineering

Moradabad Institute of Technology, Moradabad

Date: 28/09/2022

To,

IQAC Coordinator
MIT, Moradabad

Subject: To communicate suggestions regarding modifications to the Mechanical Engineering syllabus to the university.

Sir,

As per feedback received from the students on syllabus of Mechanical Engineering Branch, the Following modifications may be incorporated in the syllabus.

- (1) A few practical labs can be added to enhance the actual learning among students and make them industry-ready, like the Non-destructive lab. Engineering mechanics lab, etc.
- (2) The syllabus of some subjects is very lengthy, so it is impossible to complete it in an effective manner. It must be split into two parts, like applied thermodynamics, kinematics of machine, Manufacturing processes, fluid mechanics and machinery, etc.
- (3) More number of lectures should be added to complete the subjects, especially in numerical subjects.

DEPARTMENT OF MANAGEMENT

Dated: 30.06.22

To,
The IQAC Chairman
MIT Moradabad

SUB: Report on the feedback taken on syllabus from students and faculty for academic year 21-22.

Dear Sir,

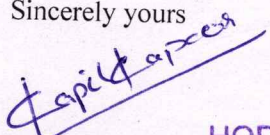

The department had collected feedback on syllabus from students and faculty for the academic year 21-22. Based on the feedback collected from both students and faculty, following recommendations are suggested to be forwarded to the university to be incorporated in the syllabus.

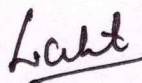

1. In MBA 1st year following recommendations can be forwarded to the university to be implemented for the upcoming session.
 - In Paper code KMBN 205, Operations Management the syllabus can be shortened by making SCM as separate subject.
 - In Paper code KMBN 103, case studies prescribed by BOS should be more.
 - In Paper code KMBN 204, More Practical Questions and Topics should be included.
 - Syllabus should be modified according to current industry requirements.
2. In MBA 2nd year following recommendations can be forwarded to the university to be implemented for the upcoming session.
 - In Paper code KMBN FM03, More practical problems should be included.
 - In Paper code KMBN MK01, Some case studies by the BOS should be included.
 - In Paper code KMBN HR04, Syllabus of some units are quite lengthy, there must be a balance between the need and availability of the content.

We request you to kindly put forward the suggestions to the university so that the syllabus could be modified for the benefit of the students.

Thanking you,

Sincerely yours

Through Director MIT

Subject: Regarding the update in syllabus on the basis of student and faculty feedback.

Dear Sir,

We had collected the feedback of students and faculty on the syllabus of session 2021-22. On the basis of the feedback, it has been observed that final year syllabus should have subject related to recent technologies in the field of ECE included in the curriculum like Electric Vehicle and Robotics. You are requested to convey this to the university, so that syllabus can be revised for the benefit of the students.

Thanking you.

Sincerely Yours

Dr. Kshitij Shinghal
