Impact on the society:-

Modern classrooms might be technical marvels, but one less flashy learning tool remains as valuable as ever. Newspapers might not be as glamorous as tablets or other gadgets, but they are still an invaluable resource to educators and students.

Newspapers are handy; since they are made out of papers they are eco-friendly and easy to recycle. Over the several advantages there are some disadvantages also.

So by this visit students will come to know all the advantages and disadvantages of newspaper.
