### Impact on society

According to Mahatma Gandhi “Sanitation is more important than independence.” Proper sanitation and hygiene are essential inputs not only for healthy and disease free living but also for a dignified life as a human being. Although sanitation and hygiene are considered to be virtues in all cultures and religions of the world, prevalence of unsanitary conditions have been a problem faced by most of the countries at some point of time in the process of their economic development.

The Swachh Bharat Mission is a remarkable initiative that has transformed India's sanitation landscape. With its focus on behavior change, waste management, and awareness creation, the mission has brought about significant improvements in sanitation coverage, public health, and overall cleanliness.

### Event Brief

## **Report On National Youth Day**

**Name of the event:-** National Youth Day

**Date :-** 13/01/2023

**No of Students Participated:-** 25

**No Of Teachers:-** 10

**Venue:-** MIT Campus

### **Impact on the society:-**

One of the most significant National Youth Day celebrations is observed in India on January 12th each year. This date marks the birthday of Swami Vivekananda, a prominent Indian philosopher, and spiritual leader who played a key role in introducing Indian philosophies of Vedanta and Yoga to the Western world.

It encourages them to believe in their ability to make a meaningful impact on society. By celebrating the day, young individuals are inspired to take initiative and contribute towards building a better future for themselves and others.

National Youth Day fosters a sense of responsibility among the youth, urging them to actively participate in initiatives that promote societal progress. It instills in them the understanding that they play a crucial role in shaping the world around them.
