After this there was a Logo Guessing Activity which involves showing participants various logos typically from well-known companies or brands which encourage memory skills and quick thinking.

A general quiz was conducted to test participants' knowledge on various topics such as current affairs and general science and provide a fun, interactive experience. It's suitable for team-building, educational purposes, or casual entertainment.

We also had a round where fresher's can come and actively volunteer by picking a slip that has an activity to perform boosting their self confidence and exploring their hidden talent.

An ice-breaking game called Snowball was conducted, where we randomly picked students from different rows and they had to answer the questions, which was designed to let students get to know each other or help us to review a particular lesson or specific content.
