CSE NEWSLETTER

Welcome to a glimpse of innovation in action. The Department of Computer Science & Engineering is a hub of learning, creativity, and technological excellence. Through academics, research, and hands-on practice, we empower students to evolve into skilled professionals and responsible technologists. This newsletter captures our journey, growth, and milestones.

Session:2025-26

Issue:01

MESSAGE FROM HEAD OF DEPARTMENT

Dr. Rajeev Kumar
HOD (CSE)

Our Computer Science & Engineering programme has been accredited by the National Board of Accreditation (NBA) four times, reflecting the academic strength of the department. We are committed to providing quality education supported by excellent practical facilities. The department offers a wide range of computing resources for faculty, students, and staff, along with a friendly, open, and supportive learning environment.

Beyond academics, we emphasize discipline, ethical values, competitiveness, and teamwork to support overall personality development. Well-equipped laboratories with diverse computing platforms allow students to work on cutting-edge technologies, with ample lab time to enhance their software and design skills.

VISION & MISSION

VISION

Developing globally recognized computer science and engineering graduates with ethical values for the software industry.

MISSION

➤ **M1:** To impart knowledge well defined in structural objectives in the field of computer science and engineering.

➤ **M2:** Provide a learning environment that fosters innovation, leadership, and overall personality development.

➤ **M3:** Develop professional ethics, teamwork, and social responsibility

PROGRAM EDUCATIONAL OUTCOMES (PEOs)

➤ **PEO 1:** The graduates will have entrepreneurial and employable skills in software industries, by adapting themselves in the corporate world by utilizing the defined instructional objectives learnt in the program.

➤ **PEO 2:** The graduates will engage in skill enhancement, that would help to work in their own area of interest, individually or in a team.

➤ **PEO 3:** The graduates will demonstrate ownership and responsiveness towards the profession and the society.

PROGRAM OUTCOMES (POs)

- **1.Engineering Knowledge:** Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization for the solution of complex engineering problems.
- **2.Problem Analysis:** Identify, formulate, review research literature and analyze complex engineering problems reaching substantiated conclusions with consideration for sustainable development.
- **3.Design/Development of solutions:** Design creative solutions for complex engineering problems and design/develop systems/components/processes to meet identified needs with consideration for the public health and safety, whole-life cost, net zero carbon, culture, society and environment as required.
- **4.Conduct Investigations of Complex Problems:** Conduct investigations of complex engineering problems using research-based knowledge including design of experiments, modelling, analysis & interpretation of data to provide valid conclusions.
- **5.Engineering Tool Usage:** Create, select and apply appropriate techniques, resources and modern engineering & IT tools, including prediction and modelling recognizing their limitations to solve complex engineering problems.
- **6.The Engineer and The World:** Analyze and evaluate societal and environmental aspects while solving complex engineering problems for its impact on sustainability with reference to economy, health, safety, legal framework, culture and environment.

PROGRAM OUTCOMES (POs)

- **7.Ethics:** Apply ethical principles and commit to professional ethics, human values, diversity and inclusion; adhere to national & international laws.
- **8.Individual and Collaborative Team Work:** Function effectively as an individual, and as a member or leader in diverse/multi-disciplinary teams.
- **9.Communication:** Communicate effectively and inclusively within the engineering community and society at large, such as being able to comprehend and write effective reports and design documentation, make effective presentations considering cultural, language, and learning differences.
- **10.Project Management and Finance:** Apply knowledge and understanding of engineering management principles and economic decision-making and apply these to one's own work, as a member and leader in a team, and to manage projects and in multidisciplinary environments.
- **11.Life-Long Learning:** Recognize the need for, and have the preparation and ability for i) independent and life-long learning ii) adaptability to new and emerging technologies and iii) critical thinking in the broadest context of technological change.

PROGRAM SPECIFIC OUTCOMES (PSOs)

- **PSO 1:** Comprehend the core subjects of CSE and apply them to resolve domain specific tribulations.
- **PSO 2:** Extrapolate the fundamental concepts in engineering and to apply latest technology with programming language skills to develop, test, implement and maintain software products.

CSSS EVENTS

S.No.	Event	Date	Total Participants
1	Swaraj-The Spirit of Independence	15-08-2025	18
2	Auditions-2025	21-08-2025	80
3	Teacher's Day Celebration	04-09-2025	20
4	Voice of Gratitude	04-09-2025	42
5	64 Squares	15-09-2025	90
6	Cloud Catalyst	27-09-2025	400
7	Hindi Pakwara	06-10-2025	24
8	Diwali Delights	15-10-2025	20
9	Blind Design	29-10-2025	40
10	Squid Game	10-11-2025	400
11	Children's Day Celebration	14-11-2025	40
